Blockbuster is **NOT** a credit tenant.

Vacancies are **NOT** a “value add”.

Financials are **NOT** enough analysis.

WEAK

The property has achieved a WEAK risk rating. **This indicates that the underlying fundamentals demonstrate an above average level of risk an astute investor would accept in a commercial property of this type and class.** The underwriter should seek to cure or mitigate the “hidden” defects as described in the Watch List section of this report. When passed through the stress test, the property exhibited signs that the increases to current vacancy, rental rate disparity, and local unemployment, as stated in the Red Flag chart below, would yield a HIGH RISK rating. Failing to make changes could potentially result in further erosion of the property’s ability to remain competitive in the marketplace and continue to service debt obligations, thereby decreasing value to stakeholders.
